

## Experience Courses and Taster Days

Many courses and taster days that in the past have been only available to attend in person are now being offered virtually due to the current Coronavirus situation. A few of the courses listed below are still showing as participants having to attend but this will be changed to online or cancelled. At present this is an ever changing situation so do register for courses to be informed of any changes. If it is a paid for courses do find out what the policy is in the event of the course being cancelled.

We are not in a position to recommend any of the courses.

A search of university taster days can be done via [UniTasterDays](#) and [UCAS](#)

Examples of what is on offer from some universities are below:

[University of Reading](#)

[University of Leicester](#)
