Government announces £725m package for young apprenticeships

Think Cambridge webinar series – starts Wed 4th February 2026, 5-6pm

Explore paid Internships with Procter & Gamble

News updates

Government launches Youth Matters National Youth Strategy - including careers support

The UK Government has launched its [National Youth Strategy](#) from a survey of 14,000 young people. Fifty Youth Futures hubs will be created offering a range of services including careers support and the 'Good work' strand includes the Youth Guarantee and expansion of Employment Hubs 'to make sure every young person can access high-quality career advice and learning and earning opportunities', including at school or college.

Earning or Learning – interim report on supporting young people

Policy Connect has published the interim report [Earning or Learning - how to support young people into work, education and training](#) from its ongoing Earning or Learning inquiry into supporting young people into secure work, education or training. Emerging themes are early identification and prevention, inclusive and flexible pathways into employment and education, local coordination and accountability, and employer engagement and real opportunities. The final report with detailed policy recommendations will be published in 2026.

UK students to regain access to Erasmus+ scheme from 2027

The UK Government have agreed a deal to [rejoin the Erasmus+ scheme from 2027](#). The deal is part of a wider package of agreements announced between the UK and European Union and creates education and training opportunities not just for HE students, but also for FE, adults learners and apprentices. A UK National Agency will be established to administer the scheme in the UK, working closely with institutions and young people.

Government announces £725m package for young apprenticeships

The UK Government has announced its package of reforms to apprenticeships aimed at young people, with an overall £725m investment. The proposals aim to reduce youth unemployment and NEET rates and connect NEET young people with local employers, as well as fully fund apprenticeship places in SMEs. New foundational apprenticeships will be launched, as well as short courses being introduced from April 2026. The investment is intended to deliver 50,000 new apprenticeship places over the next three years. Read the press release [here](#).

Report on workforce planning for the clean energy sector – House of Commons

The House of Commons Energy Security and Net Zero Committee has published its report into workforce planning to meet the demand of the clean energy sector: [Workforce planning to deliver clean, secure energy](#). The report shows demand for skilled labour with barriers remaining. They also highlight that careers in clean energy and retrofit need to be much better promoted – including through careers guidance and clear career pathways – especially to under-represented groups.

New blog: Understanding apprenticeship assessment reforms and what they mean for you

In this [blog](#) by Gemma Marsh, Skills England Deputy CEO, you can find everything you need to know about apprenticeship assessment reforms, including: what's covered, what we've heard already and how you can give feedback, Skills England's role, how we are implementing the reforms and next steps, what the changes mean for assessment organisations, training providers and employers and further information and guidance from The [Department for Education](#) and [Federation of Awarding Bodies \(FAB\)](#).

'Broken' careers service funding model to be reformed – Work and Pensions Committee

The Committee's 'Creating a New Jobs and Careers Service' report said poor funding and badly designed targets had led to the National Careers Service having too little time with clients and low impact interventions. Debbie Abrahams MP, Chair of the Committee, welcomed the response from Government and said, "the job is about finding out enough about people, their ambitions and interests, their skills, the barriers they face, what drives them, their needs". Read the full article [here](#).

New UCAS assembly video

The UCAS Hub has great resources for teachers, careers leads and students, including the new UCAS assembly video, designed to inspire your students at the very start of their careers discovery journey: [UCAS Hub](#). Filmed at the University of Derby, with the support of the School of Humanities, Law and Creative Arts, and starring Performing Arts students, it's a powerful way to show them what's possible. **Watch the new UCAS assembly video** with your students, perfect for classroom inspiration: [UCAS Assembly video](#).

UK Occupations with the highest workforce demand – GOV.uk

Skills England has published its latest [Occupations in demand](#) analysis, classifying occupations as critical, elevated or not in high demand. 62 out of 368 occupations are considered in critical demand, around 15% of the UK workforce. Specialist medical practitioners show the highest level. Elevated demand occupations include care workers and home carers, with health and social care having the highest number of in demand workers, while information and communications (e.g. programmers and software developers) is also high demand.

Record number of 18-year-olds plan to stay at home – WONKHE

This December 2025 article, [What is student financial support for in 2025? | Wonkhe](#), shares UCAS data exposing inequalities by income and location. Jim Dickinson explores what this means for access, and whether financial support is doing what it's supposed to. Key takeaways are the fact that disadvantaged students are 3.5 times more likely to stay at home than advantaged peers and analysis of UCAS's new Scholarships tool. Read the article [here](#).
